
SONOGRAPHER

Role Summary

To ensure prompt, efficient and accurate provision and reporting of ultrasound services.

Duties and Responsibilities

- Ensuring patients comfort before procedures by taking them through the plan of action and responding to their queries, correctly positioning them on the table and applying gel to their skin.
- Appropriately adjusting the ultrasound equipment and positioning the patient correctly to capture clear images
- Constantly monitoring the patient during the procedure to ensure their comfort and offering due care to them.
- Identify and choose the correct images, pick out any differences between the healthy areas and areas of further investigation by mapping out the scope that the exam should extend to.
- Presenting interpretable sonograms to the doctor in-charge and offering your professional opinion on the images captured.
- Filling out the required paperwork on the patients' records and other relevant documentation as required by the hospital management.
- Proper maintenance and sterilization of the ultrasound equipment.
- Offering your assistance to the doctor(s) in-charge and healthcare teams during invasive procedures
