

GENERAL NURSE

Role Summary

Ensure high-quality clinical care to all patients through provision of effective nursing services as a Registered Nursing Officer. Successful candidates will rotate between the Outpatient Department and the General Wards.

Duties and Responsibilities

- Maintain the highest possible standard of client care by adhering to the hospital standard treatment protocols and guidelines.
- Ensure an outstanding client experience through effective triage and monitoring and evaluation of patients admitted in the hospital.
- Administer medication and perform medical procedures within prevailing hospital guidelines and protocols.
- Follow through investigations and procedures ordered by Doctors during ward rounds.
- Run MCH, family planning and other clinics as assigned by Head of Clinical Services.
- Provide comprehensive client counselling e.g., reproductive health, HIV, vaccination, pap smear and cancer screening amongst other services.
- Ensure outstanding maintenance and availability of medical equipment in the hospital.
- Professionally and timely prepare and present regular nursing reports.
- Assist in the formulation, review and implementation of relevant policies and procedures e.g., Infection prevention.
- Adequately prepare and participate in health talks, presentations, Continuous Medical Education (CME) events etc.
- Participate in clinical audits.
